

PU Injection Resins

WEBAC® PURseal M SF

- ▶ Accelerates the reaction of **WEBAC® PURseal**

Range of application

- Accelerates the reaction of PU resins **WEBAC® PURseal**, **WEBAC® PURseal M**, **WEBAC® PURseal M S**, **WEBAC® PURseal M SL5** and **WEBAC® PURseal M SL10**

Application instruction

- Shake well before use
- Add accelerator amount referring to total volume (component A + B)
- Mix into component A immediately before use

WEBAC-Chemie GmbH
 Fahrenberg 22
 22885 Barsbüttel

 Fax +49 40 6703227
 info@webac.de
 www.webac-grouts.com

www.webac.de

Reaction time
 of **WEBAC® PURseal M** depending on amount of **WEBAC® PURseal M SF** added
 at 5 °C/41 °F, 10 °C/50 °F and 23 °C/73 °F

— Start of reaction
 — End of Reaction
 II Fault tolerance

Technische Information Technical Information

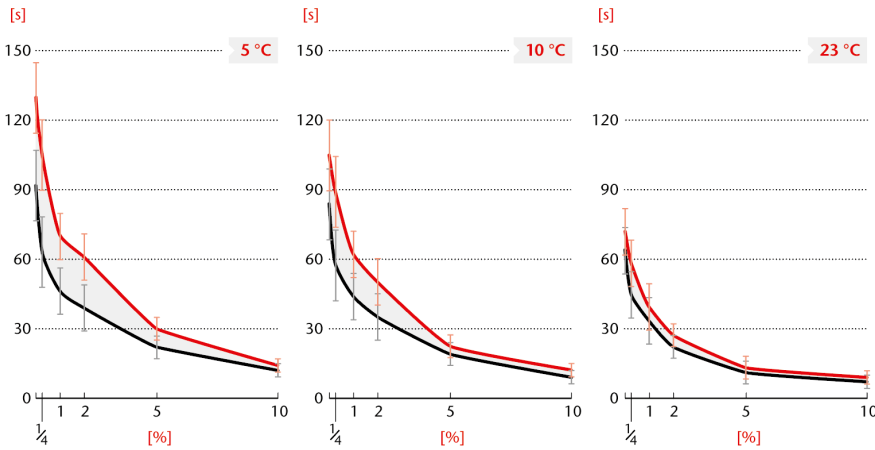

PU Injection Resins

WEBAC® PURseal M SF

Reaction time

of WEBAC® PURseal M S depending on amount of WEBAC® PURseal M SF added at 5 °C/41 °F, 10 °C/50 °F and 23 °C/73 °F

- Start of reaction
- End of Reaction
- II Fault tolerance

Further reaction times on request.
