

WEBAC 4204 Comp. B Version 2.0

Revision date 28-Jan-2025

Print date 28-Jan-2025

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier

Trade name/designation

WEBAC 4204 Comp. B Epoxy Resin

1.2 Relevant identified uses of the substance or mixture and uses advised against

Restricted to professional users.

Relevant identified uses

hardener/amine component for epoxy resin

1.3 Details of the supplier of the safety data sheet

supplier

WEBAC-Chemie GmbH Fahrenberg 22 Telephone: +49 40 670570 Telefax: +49 40 6703227 22885 Barsbüttel Germany

Department responsible for information

E-mail (competent person)

1.4 Emergency telephone number

Giftinformationszentrum-Nord

Emergency telephone number: +49 551 192 40 available 24h/365days; Information will be provided in German and English

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture

Classification according to Regulation (EC) No 1272/2008 [CLP]

The mixture is classified as hazardous according to regulation (EC) No 1272/2008 [CLP].

msds@webac.de

Acute Tox. 4 oral; Acute toxicity; H302 Harmful if swallowed.

Eye Dam. 1; Serious eye damage/eye irritation; H318 Causes serious eye damage.

Repr. 2; Reproductive toxicity; H361 Suspected of damaging fertility or the unborn child.

STOT RE 2; STOT-repeated exposure; H373 May cause damage to organs through prolonged or repeated exposure.

Skin Corr. 1B; Skin corrosion/irritation; H314 Causes severe skin burns and eye damage.

Skin Sens. 1; Skin sensitisation; H317 May cause an allergic skin reaction.

Aquatic Chronic 3; Hazardous to the aquatic environment; H412 Harmful to aquatic life with long lasting effects.

2.2 Label elements

GHS05

Labelling according to Regulation (EC) No. 1272/2008 [CLP]

Hazard pictograms

Remark

Full text of H- and EUH-statements: see section 16.

SECTION 4: First aid measures

4.1 Description of first aid measures

General information

In all cases of doubt, or when symptoms persist, seek medical advice. In case of unconsciousness give nothing by mouth, place in recovery position and seek medical advice.

Following inhalation

Remove casualty to fresh air and keep warm and at rest. In case of irregular breathing or respiratory arrest provide artificial respiration.

Following skin contact

Remove contaminated, saturated clothing immediately. After contact with skin, wash immediately with plenty of water and soap. Do not use solvents or thinners.

After eye contact

Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Seek medical advice immediately.

Following ingestion

If swallowed, rinse mouth with water (only if the person is conscious). Seek medical advice immediately. Keep victim calm. Do NOT induce vomiting.

Self-protection of the first aider

First aider: Pay attention to self-protection!

4.2 Most important symptoms and effects, both acute and delayed

Symptoms

In all cases of doubt, or when symptoms persist, seek medical advice.

4.3 Indication of any immediate medical attention and special treatment needed

First Aid, decontamination, treatment of symptoms.

SECTION 5: Firefighting measures

5.1 Extinguishing media

Suitable extinguishing media

alcohol resistant foam, Carbon dioxide (CO2), Powder, spray mist, (water)

Unsuitable extinguishing media

Strong water jet

5.2 Special hazards arising from the substance or mixture

WEBAC 4204 Comp. B Version 2.0

Revision date 28-Jan-2025

Print date 28-Jan-2025

Dense black smoke occurs during fire. Inhaling hazardous decomposing products can cause serious health damage.

5.3 Advice for firefighters

Provide a conveniently located respiratory protective device. Cool closed containers that are near the source of the fire. Do not allow water used to extinguish fire to enter drains, ground or waterways.

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

Ventilate affected area. Do not breathe vapours.

6.2 Environmental precautions

Do not allow to enter into surface water or drains. If the product contaminates lakes, rivers or sewages, inform competent authorities in accordance with local regulations.

6.3 Methods and material for containment and cleaning up

For containment

Isolate leaked material using non-flammable absorption agent (e.g. sand, earth, vermiculit, diatomaceous earth) and collect it for disposal in appropriate containers in accordance with the local regulations (see section 13).

For cleaning up

Clean using cleansing agents. Do not use solvents.

6.4 Reference to other sections

Safe handling: see section 7 Personal protection equipment: refer to section 8 Disposal: see section 13

SECTION 7: Handling and storage

7.1 Precautions for safe handling

Advices on safe handling

Avoid contact with skin, eyes and clothes. Avoid breathing spray.
 Personal protection equipment: see section 8
 Follow the legal protection and safety regulations.

Advices on general occupational hygiene

When using do not eat, drink or smoke.

7.2 Conditions for safe storage, including any incompatibilities

Requirements for storage rooms and vessels

Storage in accordance with the Ordinance on Industrial Safety and Health (BetrSiVO). Access only for authorised persons. Smoking is forbidden.

Always keep in containers that correspond to the material of the original container. Store carefully closed containers upright to prevent any leaks. Do not empty containers with pressure - no pressure vessel!

Hints on joint storage

Keep away from strongly acidic and alkaline materials as well as oxidizers.

Do not store together with: Food and feedingstuffs

Storage class LGK8A - Combustible corrosive substances

Further information on storage conditions

* Store in a well-ventilated and dry room at temperatures between 5 °C and 30 °C.

7.3 Specific end use(s)

Observe technical data sheet.

SECTION 8: Exposure controls/personal protection

8.1 Control parameters

Occupational exposure limit values

	CAS No.	Substance name	Source	Long-term /short-term (Spitzenbegrenzung)
*	1477-55-0	m-phenylenebis(methylamine)	-	0.1 / - (-) mg/m³

8.2 Exposure controls

Provide good ventilation. This can be achieved with local or room suction.

Revision date 28- Jan-2025

Personal protection equipment

Respiratory protection

In case of inadequate ventilation wear respiratory protection.

Hand protection

Suitable material: NBR (Nitrile rubber) Thickness of the glove material >= 0.4 mm Breakthrough time >= 480 min

For special purposes, it is recommended to check the resistance to chemicals of the protective gloves mentioned above together with the supplier of these gloves. Observe the instructions and details for use, storage, maintenance and replacement provided by the protective glove manufacturer. Penetration time of glove material depending on intensity and duration of exposure to skin. Recommended glove articles: EN ISO 374

Skin protection

Barrier creams can help protecting exposed skin areas. In no case should they be used after contact.

Eye/face protection

Eye glasses with side protection: EN 166

Wear closely fitting protective glasses in case of splashes.

Body protection

Wear suitable protective clothing. Change contaminated, saturated clothing.

Environmental exposure controls

Do not allow to enter into surface water or drains.

SECTION 9: Physical and chemical properties

9.1 Information on basic physical and chemical properties

Physical state	Liquid
Colour	yellow
Odour	characteristic
рН	not applicable
Melting point/freezing point	not determined
Initial boiling point and boiling range	not determined
Flash point	> 101 °C
flammability	not applicable
Lower explosion limit at 20°C	not determined
Upper explosion limit at 20°C	not determined
Vapour pressure at 20°C	0.166 mbar
Relative vapour density	not applicable
Density at 20 °C	1.0 kg/l
Water solubility at 20°C	partially soluble
Partition coefficient: n-octanol/water	see section 12
Ignition temperature in °C	not determined
Decomposition temperature	not determined

LD50: oral (Rat): = 930 mg/kg

Skin corrosion/irritation

Causes severe skin burns and eye damage.

Serious eye damage/eye irritation

Causes serious eye damage.

Respiratory or skin sensitisation

May cause an allergic skin reaction.

Overall assessment on CMR properties

Suspected of damaging fertility or the unborn child.

STOT-single exposure

Based on available data, the classification criteria are not met.

* STOT-repeated exposure

May cause damage to organs through prolonged or repeated exposure.

Aspiration hazard

Based on available data, the classification criteria are not met.

11.2 Information on other hazards

Endocrine disrupting properties

This product does not contain a substance that has endocrine disrupting properties with respect to humans as no components meets the criteria.

SECTION 12: Ecological information

12.1 Toxicity

Harmful to aquatic life with long lasting effects.

Algae toxicity

- NOEC (Pseudokirchneriella subcapitata): 310 mg/L (72 h)
 - m-phenylenebis(methylamine) ErC50: (Scenedesmus subspicatus): = 12 mg/L (72 h)

ErC50: (Scenedesmus subspicatus): = 12 mg/L (72 h)

Daphnia toxicity 2-piperazin-1-ylethylamine

EC50 (Daphnia magna (Big water flea)): = 58 mg/L (48 h)

- * Amines, polyethylenepoly-, triethylenetetramine fraction EC50 (Daphnia magna (Big water flea)): 31.1 mg/L (48 h)
- * Poly(oxypropylene)diamine EC50 (Daphnia magna (Big water flea)): 80 mg/L (48 h)
- * benzyl alcohol EC50 (Daphnia magna (Big water flea)): 230 mg/L (48 h)
- m-phenylenebis(methylamine)
 EC50 (Daphnia magna (Big water flea)): = 15.2 mg/L (48 h)

Vers	ion 2.0 Revision date 28-Jan-2025	Print date 28-Jan-2025
*	<i>Fish toxicity</i> 2,4,6-tris(dimethylaminomethyl)phenol LC50: (Oncorhynchus mykiss (Rainbow trout)): = 222 mg/L (24 h)	
*	LC50: (Cyprinus carpio (Common Carp)): = 718 mg/L (96 h)	
*	2-piperazin-1-ylethylamine LC50: (Poecilia reticulata (Guppy)): = 368 mg/L (96 h)	
*	Amines, polyethylenepoly-, triethylenetetramine fraction LC50: (Pimephales promelas (fathead minnow)): 330 mg/L (96 h)	
*	Poly(oxypropylene)diamine LC50: (Leuciscus idus (golden orfe)): > 15 mg/L (96 h)	
*	benzyl alcohol LC50: 460 mg/L (96 h)	
	m-phenylenebis(methylamine) LC50: (Oncorhynchus mykiss (Rainbow trout)): > 100 mg/L (96 h)	
	LC50: (Danio rerio (zebrafish)): > 100 mg/L (96 h)	
12.2	Persistence and degradability No information available.	
12.3	Bioaccumulative potential	
ł	Partition coefficient: n-octanol/water = -2.08 (Amines, polyethylenepoly-, triethylenetetramine fraction)	
12.4	Mobility in soil	
ŧ	Hydrocarbons, C9-unsaturated, polymerized = 5.5	
12.5	Results of PBT and vPvB assessment	
	The substances in the mixture do not meet the PBT/vPvB criteria according to REACH, annex XIII.	
12.6	Endocrine disrupting properties	,
	This product does not contain a substance that has endocrine disrupting properties with respect to non-ta components meets the criteria.	arget organisms as no
12.7	Other adverse effects	
	No information available.	
SE	CTION 13: Disposal considerations	
13.1	Waste treatment methods	
	Product/Packaging disposal	
	Do not empty into drains; dispose of this material and its container in a safe way. Waste disposal accordi EC, covering waste and dangerous waste.	ng to directive 2008/98/

Waste codes/waste designations according to EWC/AVV

080409* - Waste adhesives and sealants containing organic solvents or other dangerous substances Hazardous waste according to Directive 2008/98/EC (waste framework directive).

Other disposal recommendations

Non-contaminated packages may be recycled. Vessels not properly emptied are special waste.

SECTION 14: Transport information

14.1 UN number or ID number

UN 2735

14.2 UN proper shipping name

Land transport (ADR/RID)

* AMINE, FLÜSSIG, ÄTZEND, N.A.G (enthält TRIETHYLENTETRAMIN, METHYLENOXID, POLYMER MIT BENZENAMIN, HYDRIERT)

Sea transport (IMDG)

* Amines, liquid, corrosive, n.o.s. (contains TRIETHYLENETETRAMINE, METHYLENEOXIDE, POLYMER WITH BENZENAMINE, HYDROGENATED)

WEBAC 4204 Comp. B Version 2.0

Revision date 28-Jan-2025

Air transport (ICAO-TI / IATA-DGR)

Amines, liquid, corrosive, n.o.s. (contains TRIETHYLENETETRAMINE, METHYLENEOXIDE, POLYMER WITH BENZENAMINE, HYDROGENATED)

14.3 Transport hazard class(es)

14.5	Environmental hazards	
	Air transport (ICAO-TI / IATA-DGR)	II
	Sea transport (IMDG)	II
	Land transport (ADR/RID)	II
14.4	Packing group	
	Air transport (ICAO-TI / IATA-DGR)	8
	Sea transport (IMDG)	8
	Land transport (ADR/RID)	8
	-	

14

Land transport (ADR/RID)	not applicable
Sea transport (IMDG)	not applicable

14.6 Special precautions for user

Transport always in closed, upright and safe containers. Make sure that persons transporting the product know what to do in case of an accident or leakage.

Advices on safe handling: see parts 6 - 8

14.7 Maritime transport in bulk according to IMO instruments

No transport as bulk according to IBC Code.

14.8 Additional information

Land transport (ADR/RID)

Tunnel restriction code: E Limited quantity (LQ): 1 ltr Hazard identification number (Kemler No.): 80

Sea transport (IMDG)

Segregation group: IMDG-Code segregation group 18 - Alkalis EmS-No.: F-A, S-B Limited quantity (LQ): 1 ltr

Air transport (ICAO-TI / IATA-DGR)

not applicable

SECTION 15: Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

EU legislation

Restrictions of occupation

Observe employment restrictions under the Maternity Protection Directive 92/85/EEC or stricter national regulations, if applicable. Observe restrictions to employment for juveniles according to the 'juvenile work protection guideline' (94/33/EC) or stricter national regulations, if applicable.

Directive 2010/75/EU on industrial emissions [Industrial Emissions Directive]

VOC value: 140 g/l

Directive 2004/42/EC on the limitation of emissions of volatile organic compounds

- VOC limit value: 2004/42/IIA(j): 500 g/l (2010)
- Maximum VOC content of the product in a ready to use condition: 604

Directive 2012/18/EU on the control of major-accident hazards involving dangerous substances [Seveso-III-**Directive**]

Hazard categories / Named dangerous substances

This product is not classified according to Directive 2012/18/EU.

National regulations

Observe in addition any national regulations!

15.2 Chemical Safety Assessment

Chemical safety assessments for substances in this mixture were not carried out.

WEBAC 4204 Comp. B Version 2.0

Revision date 28-Jan-2025

Print date 28-Jan-2025

SECTION 16: Other information

	List of relevant haza	rd statements and/or precautionary statements from sections 2 to 15	
	H302	Harmful if swallowed.	
	H304	May be fatal if swallowed and enters airways.	
*	H310	Fatal in contact with skin.	
	H311	Toxic in contact with skin.	
	H312	Harmful in contact with skin.	
	H314	Causes severe skin burns and eye damage.	
*	H315	Causes skin irritation.	
	H317	May cause an allergic skin reaction.	
*	H318	Causes serious eye damage.	
	H319	Causes serious eye irritation.	
	H332	Harmful if inhaled.	
	H361	Suspected of damaging fertility or the unborn child (state specific effect if known) (state route of exposure if it is conclusively proven that no other routes of exposure cause the hazard).	
	H372	Causes damage to organs (or state all organs affected, if known) through prolonged or repeated exposure (state route of exposure if it is conclusively proven that no other routes of exposure cause the hazard).	
	H373	May cause damage to organs (or state all organs affected, if known) through prolonged or repeated exposure (state route of exposure if it is conclusively proven that no other routes of exposure cause the hazard).	
	H412	Harmful to aquatic life with long lasting effects.	
*	EUH071	Corrosive to the respiratory tract.	
	Classification for mixtures and used evaluation method according to regulation (EC) No 1272/2008 [CLP]		
	Acute Tox. 4 oral	Calculation method.	

Acute Tox. 4 oral	Calculation method.
Eye Dam. 1	Calculation method.
Repr. 2	Calculation method.
STOT RE 2	Calculation method.
Skin Corr. 1B	Calculation method.
Skin Sens. 1	Calculation method.
Aquatic Chronic 3	Calculation method.

Abbreviations and acronyms

ADR: European Agreement concerning the International Carriage of Dangerous Goods by Road OEL: Occupational Exposure Limit Value

BLV: Biological limit values

CAS: Chemical Abstracts Service

CLP: Classification, Labelling and Packaging

CMR: Carcinogenic, Mutagenic and Reprotoxic

DIN: German Institute for Standardization / German industrial standard

DNEL: Derived No-Effect Level

EAKV: European Waste Catalogue Directive

EC: Effective Concentration

EC: European Community

EN: European Standard

IATA-DGR: International Air Transport Association – Dangerous Goods Regulations

IBC Code: International Code for the Construction and Equipment of Ships carrying Dangerous Chemicals in Bulk ICAO-TI: International Civil Aviation Organization Technical Instructions for the Safe Transport of Dangerous Goods by Air IMDG Code: International Maritime Code for Dangerous Goods

ISO: International Organization for Standardization

LC: Lethal Concentration

LD: Lethal Dose

MARPOL: Maritime Pollution: The International Convention for the Prevention of Pollution from Ships OECD: Organisation for Economic Cooperation and Development PBT: persistent, bioaccumulative, toxic PNEC: Predicted No Effect Concentration

RID: Regulations concerning the International Carriage of Dangerous Goods by Rail

UN: United Nations

VOC: Volatile Organic Compounds

vPvB: very persistent and very bioaccumulative

Indication of changes

* Data changed compared with the previous version.
